

Ali Zain

Student Developer • Full-Stack Developer • AI Builder

✉ energetickids02@gmail.com </> github.com/az201214 📅 Age: 14 / Grade 9 (O Levels)

I am a 14-year-old student developer and AI builder who learns primarily by building. I create modern web and mobile applications, experiment with AI and emerging technologies, and genuinely enjoy turning ambitious ideas into working products. I am highly interested in full-stack development, AI/LLM integration, automation, product development, and crafting creative digital experiences. I am curious, a fast learner, and always looking for real-world problems to solve through code.

FEATURED PROJECTS

NexusInsight CRM

Built by Ali Zain

A full-stack B2B, multi-tenant workspace and CRM-oriented application designed for robust team coordination.

Capabilities: Full-stack development, multi-tenant architecture, auth & role-based access, team/workspace functionality, task management, testing, QA.

TypeScript

Next.js

Supabase

Rally

Built by Ali Zain

A mobile-first padel matchmaking platform designed to help solo players, pairs, and incomplete groups seamlessly form complete matches.

Capabilities: Player matchmaking based on availability, location, and skill compatibility. Real-time backend functionality.

Flutter

Dart

Firebase

Meetily

Open-source Contribution

An exploration into AI-driven meeting tools. My involvement consists of forking, experimenting with, and adapting an existing open-source codebase to learn advanced AI integrations.

Rust

Whisper

Ollama

AI

OPEN-SOURCE & COLLABORATION

Open-Source Exploration

Experience working with existing open-source codebases (such as Meetily). Adept at navigating unfamiliar repositories, adapting existing code, and experimenting with upstream systems.

Independent Development

Primarily learn by building and experimenting with self-directed software projects. Capable of collaborative project development and informal team coordination with peers.

TECHNICAL SKILLS

LANGUAGES

TypeScript, JavaScript, Dart, Rust, HTML, CSS

FRONTEND & MOBILE

React, Next.js, Vite, Tailwind CSS, Flutter, Android

BACKEND & CLOUD

Node.js, Express.js, Supabase, Firebase, REST APIs

AI & EMERGING TECH

AI/LLM Integration, Generative AI, AI Apps, Ollama, Whisper, Automation

3D & INTERACTIVE WEB

Three.js, React Three Fiber, React Three Drei, WebGL, GSAP, ScrollSmoother

DEVELOPMENT PRACTICES

UI/UX Implementation, Auth, Database Integration, Testing & QA, Performance

ACHIEVEMENTS

- **Top 10** — Code Bash Competition
- **1st Position at School** — Grades 6, 7 & 8

INTERESTS

AI experimentation

Product building

Entrepreneurship

Gaming

Padel

Cricket
